## CONTRIBUTORS

ALYSON BARDSLEY <alyson.bardsley@csi.cuny.edu> teaches in the Department of English and the Program in Women's, Gender, and Sexuality Studies at the College of Staten Island. She has had work appear in *Modern Philology*, *Nineteenth-Century Contexts*, *Yale Journal of Law and Humanities*, and *Feminist Teacher*, as well as chapters in books from Cambridge and Bucknell University Presses. Her current project is on the romance of neuroscience and the depiction of the neuro-atypical in contemporary fiction and life-writing.

STEPHEN J. BURN <stephen.burn@gla.ac.uk> is the author or editor of five books about contemporary fiction, including *Jonathan Franzen at the End of Postmodernism* (2008) and *Conversations with David Foster Wallace* (2012). He is currently Reader in Post-45 American Literature at the University of Glasgow and is working on a monograph entitled *Neurofiction: the Contemporary Novel and the Brain*.

WES CHAPMAN <wchapman@iwu.edu> teaches at Illinois Wesleyan University. His work has appeared in *Blake: An Illustrated Quarterly* and *Postmodern Culture*, among other places. He is currently working on a monograph developing a cognitive framework for understanding how literature contributes to human happiness.

ANDREW GAEDTKE <gaedtke@illinois.edu> is an Assistant Professor of English at the University of Illinois, Urbana-Champaign. His work on modernist and contemporary literature has appeared or is forthcoming in *NOVEL: A Forum on Fiction*, *Contemporary Literature*, *Modernist Cultures*, and *jml: Journal of Modern Literature*. He is currently completing a book entitled *The Machinery of Madness: Psychosis, Technology and Twentieth-Century Narrative*.

N. KATHERINE HAYLES <Katherine.hayles@duke.edu> writes and teaches on the relations of literature, science, and technology in the twentieth and twenty-first centuries. Her book *How We Became Posthuman* won the Rene Wellek Prize for the Best Book in Literary Theory for 1998–99, and her book *Writing Machines* won the Suzanne Langer Award for Outstanding Scholarship. Her most recent book is *How We Think: Digital Media and Contemporary Technogenesis*.

ALAN RICHARDSON <alan.richardson@bc.edu> is Professor of English at Boston College. His books include *British Romanticism and the Science of the Mind* (2001) and *The Neural Sublime: Cognitive Theories and Romantic Texts* (2011). He is co-editor of a special issue of *Po-*

*etics Today* on "Literature and the Cognitive Revolution" (2002) and of *The Work of Fiction: Cognition, Culture, and Complexity* (2004). His current research concerns literary and scientific conceptions of imagination from romanticism to the present.

ANNE STILES <astiles1@slu.edu> is Associate Professor of English and Director of Medical Humanities at Saint Louis University. She is the author of *Popular Fiction and Brain Science in the Late Nineteenth Century* (Cambridge UP, 2012) and the editor of *Neurology and Literature, 1866-1920* (Palgrave, 2007). Stiles serves as Victorian section co-editor of the Wiley-Blackwell journal *Literature Compass*. Her most recent work focuses on literary authors' responses to Christian Science on both sides of the Atlantic.

JASON TOUGAW <jason.tougaw@qc.cuny.edu> teaches at Queens College and the CUNY Graduate Center. He is the author of *Strange Cases: The Medical Case History and the British Novel* (Routledge) and co-editor, with Nancy K. Miller, of *Extremities: Trauma, Testimony, and Community*. He blogs about relations between art and science at [californica.net](http://californica.net).
